**PARKING:** If the ground is dry enough, you may park on the lawn on the left of the driveway when you enter the farm. Go down towards the outdoor and swing a loop so your nose is pulling out. Farm Owner Alison Head will determine if parking on the grass is allowed.

When the ground is very wet, pull in behind the blue indoor and circle around on the gravel area and stack as far right and forward as you can. Four trailers will fit easily. When the grass is unavailable for parking please leave directly after the lesson completes if you are in the first session to make room for the second sessions trailers.
